SERVICES

Heat Transfer Repair ■ High Pressure, Severe Service Valve Repair
Level Surveys ■ Steam Surveys ■ Liquid Level Gage & Sight Flow Repair
Rotating Equipment Reman ■ Thermowell & Thermocouple Repair

Instrumentation

Fluenta: Flare gas measurement; for 30 years, it's all we've done. And because it's our sole focus, our dedication to innovation and precision in challenging conditions is unrivalled.

Faure Herman: As experts in fluid measurement, we cater to four key markets: Aerospace, Defense, Energy and Water. For each of these segments, we have the most accurate, reliable and durable solution. We also offer expert services before, during and after the installation of our flowmeters.

Faure Herman Ultraflux: specializes in high-precision ultrasonic flow meters that provide accurate, reliable, and non-intrusive flow measurement for a wide range of industries, including oil and gas, chemical processing, water treatment, and aerospace.

GSI: Liquid Bulk Storage Tank Gauging, Overfill & Rupture Protection, Leak Detection, Vapor Monitoring, Tank Bottom or Roof Movement Indication

Sandelius: Thermowells, Thermocouples, RTDs, & Multipoints, Specialize in exotic alloys & excel in handling emergency jobs 24/7

Energy Flow Systems: Manufacturer of Venturi Tubes, Meter Tubes, Flow Nozzles, Orifice Plates, Condensate Chambers & Seal Pots, and Strainers.

Winters: Pressure Gauges, Thermometers, Pressure Transmitters, Pressure Switches, Diaphragm Seals

Questtec Solutions (QTS): Liquid and Magnetic Level Gages, Guided Wave Radar, Tubular Gage, Level Switches, Steam Gages

Machine Saver: Predictive Maintenance, Industrial Accelerometers, & Vibration Solutions - Remote Predictive ML & AI Software, Vibration & Reliability Hardware, Dedicated Monitoring Service

Valves & Actuation

Gestra: Products & solutions for steam & condensate applications - Steam traps, severe service control valves, blowdown valves, isolation valves, non-return checks, strainers, & TDS boiler controls

ABO Valves: Concentric, High Performance, & HP PTFE Lined Butterfly Valves, Knife Gate Valves, Gate Valves, Check Valves, & Ball Valves

Hiter: High-performance valves for steam, water, and other industrial fluids. Part of the Spirax Sarco Group, Hiter Valves combines decades of expertise with advanced engineering to deliver reliable, efficient solutions for a variety of applications.

AZ Valves: High-performance sleeved and lined plug valves, lined ball valves, safety sample systems, lined sight flow indicators, HF Plug Valves, HP Plug Valves 1500psi, Double Block & Bleed Valves

Bray: Butterfly Valves, Check Valves, Ball Valves, Knife Gate Valves, Cryogenic Valves, Control Valves, Actuators, Valve Accessories

Burling Valves: 100% made in USA - Pressure Reducing, Back Pressure, Differential & Negative Bias, Dome-Loaded, Direct Acting Regulators

Amri: PFA Lined Butterfly Valves, PFA Lined Ball Valves, Actuators

Reman Fisher Sales: Reman & New Fisher Control Valves, Regulators, & Positioners

Fixed Equipment

sofis: Manufacturer of valve safety systems including Smith Interlocks - linear key interlocks, FlexiDrive - remote operator, EasiDrive - portable actuator, & VPI - Valve Position Indicator

Amarillo Gear Co.: Repair/Renew gear drives for all manufacturers, Marley™, including heat transfer system gear drives. Includes the sale of Marley™ drive parts.

HotCaps: Custom removable insulation covers - Reusable high-quality, custom-made insulation jackets for equipment, vessels, & piping of all sizes

2M Group: 2M provides new heat transfer systems and offers repair services with OEM replacement parts. Plate & Frame, Gaskets, Plate Packs, Shell & Tube, Fin Fan & Compressor Coolers, Radiators, Spiral Exchangers, and more.

Precision Hose & Expansion Joints: Corrugated Metal Hose, Braided Metal Hose, Expansion Joints

2M Group

Several of Our Valued Customers

2M is your one-stop resource for Plate Heat Exchanger Services, Replacement Plates & Gaskets, Shell & Tube Industrial Radiator Services, Spiral Heat Exchangers, Finned Tube Heat Exchangers, Oil Coolers, Aftercoolers, Intercoolers, Watermakers, and any other heat exchange services you might require. We also manufacture new replacement heat transfer products.

Heat Exchanger Services provided include:

- Plate Heat Exchanger Maintenance
- Custom Plate Heat Exchangers for Obsolete Units
- Tube & Shell Heat Exchanger Maintenance
- Fin Fan Exchanger Service
- Cooling Tower Service
- Exchanger Disassembly, Inspection, and Complete Overhaul
- Heat Exchanger Cleaning via Ultrasonic Cleaning or Chemical Bath
- Dye Pen Testing
- Retubes

Rentals & Replacement Parts:

- Plates & Plate Packs
- Gaskets
- Tubing

Sandelius

A Few of Our Valued Customers

Since 1956 our name has meant reliability & quality you can trust. We design and manufacture all types of thermowells, thermocouples, RTDs, & multipoint assemblies. In addition to our core product lines, we also provide thermocouple wire, sensor accessories & fittings, bimetal & gas actuated thermometers & sample probes. High-pressure thermocouples, high-velocity thermowells & severe corrosion/erosion applications are some additional examples of the dynamic nature of our supply scope.

We Specialize In:

- Custom Temperature Application Design
- Exotic Alloys & Coatings
- Emergency Rush Order Support
- Weekend Or After-Hour Deliveries
